

Fallow drama  
I'm listening for the fruit to fall, love  
Baked in the footlight  
Some buttermilk free love cult  
M'lady or the tiger  
Our runaway summertime hit  
Slather me with butter  
Ring around the world ash pit

Airliner fallopian juke  
Open up wide, I'll lift you up  
I'll lift you up, tiger tail  
I'll lift you up, tiger tail  
And I just can't let it go  
And I just can't let it go  
And I just can't let it go  
And I just can't let it go
