

O Ye Saddle Babes

Deerhoof

Yip ee, yay o

Head 'em up soon
Move 'em out soon cowboy
How will you last, weather forecast cowboy?
The populations evacuation, yeah
A new location with vegetation, yeah
Cowboys were just a corporate invention
Stick figure futures ain't what they used to be

Can't we all just get along, little doggies?
Can't we all just get along, little doggies?
Can't we all just get along, little doggies?
Can't we all just get along, little doggies?

How will you last, weather forecast cowboy?
A new location with vegetation, yeah

Cowboys were just a corporate invention
