

Risk Free

Deerhoof

I can never make the garden grow
With no one there to say I told you so
Everywhere I go it's all the same
My motivation is a risk of shame

They give me those numbers
They give me those numbers
They give me those numbers
They give me those numbers

I won't listen to you
I won't listen to your eyes
I won't listen to you
I won't listen to your eyes

Sitting at the organ I will play
But I should play the way that no one says
Everywhere I go it's all the same
My motivation is a love affair

They give me those numbers
They give me those numbers
They give me those numbers
They give me those numbers

I won't listen to you
I won't listen to your eyes
I won't listen to you
I won't listen to your eyes
