

## Little Kids

### Deerhunter

Kids drinking gin on the  
The front lawn  
The kids see that man walking down  
The dirt road

These kids see the sky and they think of him  
Dressed in flames  
Kids walk behind, slowly stalk  
That old man

To get older still  
To get older still  
To get older still  
To get older still

These kids followed him in  
Into his shed  
Where he turns on the radio  
And smokes a cig  
These kids come with gasoline  
And they strike a match

To get older still  
To get older still  
To get older still  
To get older

To get older still  
To get older still  
To get older still  
To get older still
