

Nosebleed

Deerhunter

We might of made a mistake But it's too late so... She's taking
off her clothes and, I got a bloody nose and.. And theres noth
ing to say, in my room its too late so I had to make a choice a
nd I chose the golden horse so

She might, she might, she might of gone too far (3x)

We might of made a mistake, but its too late now to to think ab
out the past when you're living in the present and everybody to
day, they get frustrated when you're living in the past and, an
d its the present

We might, we might, we might of gone too far..
