

## Antidote

Deez Nuts

Clarity's a luxury I cannot afford.  
Sometimes I gotta face my demons, just to make sense of it all.

Path of least resistance, so easy to find.  
So I step outside myself, just to see what's on my mind.  
True what they say, idle time's the devil's play thing.  
So why the fuck I only sin when burning candles at both ends.  
Prayers to false idols just lead to more questions.  
In dark corners of my psyche I find all the answers I need.

And I'm getting closer, I think I'm getting closer,  
I might just take another dose, might just do it over. I might  
just...

I might just take another dose, might just do it over.  
I think I'm getting closer, the antidote's within reach.  
But if I take another dose, might just find what I need. I migh
