

# Cold Sweat

Deez Nuts

I got a sweet tooth for the poisonous pills  
Glass half-full, nah, let the poison spill  
You don't wanna know what I know or see what I've seen  
What's a god without a little O.D.?  
Just a G, just a G  
Just a G, just a G  
Just a G, just a-  
Just a G

I gotta seek the truth, I'ma need a helping hand  
And if it pulls me down, I guess that's a fitting end  
You don't know what I know, you ain't seen what I've seen  
What's a god without a little O.D.?  
Just a G, just a G  
Just a G, just a G  
Just a G, just a-  
Just a G

Dip your toes in the deep end  
The sharks are circling now  
They smell the blood, they taste the cold sweat  
You may never make it out

Give me what I need, don't let me down  
Cold sweat, let it trickle down  
And take me to great heights before I come down  
Cold sweat, let it drip or drown and

Give me what I need, don't let me down  
Cold sweat, let it trickle down  
And take me to great heights before I come down  
Cold sweat, let it drip or drown and
