

# Face This On My Own

Deez Nuts

There ain't nothing quite like this life we live,  
Shout out my brothers ya'll know what it is  
We've all walked the line we've all paid our dues,  
But at the end of the day this is the life we choose.

We've all walked the line, we've all paid our dues.

Proud of each and everyone one of us,  
Carved out our own niche never leaned on a crutch.  
Sometimes we take a fall ain't easy st,  
You got our back if we trippin' help us back on our feet.

And you know we'd catch you if you fall.

(Yeah) don't have to face this on my own,  
(No) I got my squad with me everywhere I go.  
(Yeah) you're never ever on your own,  
(No) no matter where you're at you got fam, never alone.

Differences are few similarities many  
If you 4204, 24 or 420.  
Through adversity we made it  
Face problems head on, all for one, one for all kid.

Through adversity, yeah we made it through.

This shit ain't for the faint hatred,  
And we all new that way back when it stared.  
Different patterns cut from the same cloth,  
Got the game stitched up can't tear us apart.

Got the game stitched up can't tear us apart.

(Yeah) don't have to face this on my own,  
(No) I got my squad with me everywhere I go.  
(Yeah) you're never ever on your own,  
(No) no matter where you're at you got fam, never alone.

Been round the world and back so many times,  
I know I never would have made it without you by my side.  
And all I need to know, is I'm never alone,  
And I don't need to face this on my own.

Don't have to face this on my own,  
I don't have to face this on my own.  
On my own.
