

## For What It's Worth

Deez Nuts

Since the days of my youth  
In the search for truth I've only found one absolute  
That's the guarantee there is no certainty  
How you embrace the unexpected means everything

[2x]

What you want and what's it worth?  
Price only counts if you pay it  
What you want and what's it worth?  
Risk only exists if you take it

Since the days of my youth  
In the search for truth I've only found one absolute  
That's the guarantee there is no certainty  
How you embrace the unexpected means everything

Can't change the past, can't control the future  
If this is news to you there's nothing I can teach you

But we're the kings of the present, of the immediate  
The plan is going in and we never deviate

[3x]

What you want and what's it worth?  
Price only counts if you pay it  
What you want and what's it worth?  
Risk only exists if you take it

For what it's worth. What it's worth  
For what it's worth

Since the days of your youth  
In the search for truth you never found one absolute  
There is no guarantee, there is no certainty  
The fact you can't embrace it undermines everything
