Deez Nuts

You know the kids one country to the next,  
Shot after shot yeah you know the rest.  
We been there and we done that and we did it the best,  
Went to the school of hard knocks, shit we aced that test.

You know the kids one bottle to the next,  
Show after show yeah you know the rest.  
We make it look easy but this life's complex,  
And if you askin' if we love this shit the answer is yes.

You know the boys dumb clever on our own tip, yeah we marchin' to our own beat.  
You know the boys, mad chill still prolific steady slinging all that dope that  
at you need.

Better hope you fuckin miss me if you see me drinkin' whiskey,  
You know me and Drew York get way past tipsy.  
We looking to come to your town, shut down the stage.  
Steady bringing all that energy that you need.
