

# Lifeless

Def Leppard

I couldn't breathe  
As I watched you leave  
I thought we had something  
But I wanted more  
I played my cards  
But I pushed you too hard  
I feel like a shipwreck  
Washed up on your shore  
Something's happening  
That I couldn't see  
I can't get my head around  
What you did to me

You left me lifeless  
You left me cold as a stone  
You left me out on my own  
You let me go (You let me)  
You left me lifeless  
You let me take it alone  
You left me down on my knees  
You let me go (You let me)  
You left me lifeless

I can't let go  
It's body and soul  
I'm drowning in memories  
So just throw me a line  
I feel betrayed  
And my nerves are all frayed  
Like the last rose of summer  
As it dies on the vine

Something's happening  
But I didn't know  
I can't turn the time back  
And it's starting to show

You left me lifeless  
You left me cold as a stone (Cold as a stone)  
You left me out on my own  
You let me go (You let me)  
You left me lifeless  
You let me take it alone (Take it alone)  
You left me down on my knees  
You let me go (You let me)  
You left me lifeless

I just can't believe  
A word they said  
I've got these voices in my head  
And they won't leave me alone  
So come on now, come in  
From the cold  
Don't leave me lifeless

You left me lifeless  
You left me cold as a stone (Cold as a stone)

You left me out on my own  
You let me go (You let me)  
You left me lifeless  
You let me take it alone (Take it alone)  
You left me down on my knees  
You let me go (You let me)  
You left me lifeless  
You left me cold as a stone (Cold as a stone)  
You left me out on my own  
You let me go (You let me)  
You left me lifeless  
You let me take it alone (Take it alone)  
You left me down on my knees  
You let me go (You let me, you let me)  
You left me lifeless
