

# We All Need Christmas

Def Leppard

So here's to you, and all you do  
Let's raise a glass to all that's past, and to the future long  
may it last  
Ohh let it last  
And may the light shine on you, and trust your hopes to see it  
through  
Forever after let it be true, for me and you

We all need Christmas, we all need someone to need  
Open your heart and let love breathe, this Christmas

So say a prayer to light the day, for those we've lost along th  
e way  
They may be gone but, they still remain, in our hearts in our n  
ame

We all need Christmas, we all need someone to need  
Open your heart and let love breathe  
We all need Christmas, we all need love to succeed  
Follow your heart, and let love lead, this Christmas

We all need Christmas, we all need someone to need  
Open your heart and let love breathe  
We all need Christmas, we all need love to succeed  
Follow your heart, and let love lead, this Christmas
