

# When Love & Hate Collide

Def Leppard

**E**  
You could have a change of heart  
**A**  
If you would only change your mind  
**C#mi**  
Instead of slamming down the phone, girl  
**A H**  
For the hundredth time  
**E**  
I got your number on my wall  
**A**  
But I ain't gonna make that call  
**C#mi**  
When divided we stand, baby  
**A H**  
United we fall

**E**  
Got the time, got a chance, gonna make it  
**A**  
Got my hands on your heart, gonna take it  
**C#mi A H**  
All I know, I can't fight this flame

**E**  
You could have a change of heart  
**A**  
If you would only change your mind  
**C#mi**  
Cause I'm crazy 'bout you baby  
**A H**  
Time after time

**E**  
Without you  
**H A H**  
One night alone  
**E C#mi**  
Is like a year without you baby  
**A H**  
Do you have a heart of stone  
**C#mi**  
Without you  
**H A**  
Can't stop the hurt inside  
**H E**  
When love and hate collide

I don't wanna fight no more  
I don't know what we're fighting for  
When we treat each other, baby  
Like an act of war  
I could tell a million lies  
And it would come as no surprise  
When the truth is like a stranger  
Hits you right between the eyes

There's a time and a place and a reason  
And I know I got a love to believe in  
All I know  
Got to win this time

Without you  
One night alone  
Is like a year without you baby  
Do you have a heart of stone  
Without you  
Can't stop the hurt inside  
When love and hate collide

You could have a change of heart  
If you would only change your mind  
Cause I'm crazy 'bout you baby

**A H**  
Crazy, crazy

Without you  
One night alone  
Is like a year without you baby  
Do you have a heart of stone  
Without you  
One night alone  
Is like a year without you baby  
If you have a heart at all  
Without you  
Can't stop the hurt inside  
When love and hate collide
