

Somewhere

Default

I've seen your face somewhere before I swear
Could it be I've met you somewhere else
It's the way you turn and look at me
Your eyes are different but they're much the same

Have I seen you before

Heaven told me they took him somewhere
Have I seen you before
Heaven told me they took you somewhere
Have I seen you before

I was with him when he left us
I feel he really never left at all
When I'm looking in this mirror
I see you in me and I feel so proud

Have I seen you before

Heaven told me they took him somewhere
Have I seen you before
Heaven told me they took you somewhere
Have I seen you before
