

# Arboreously Transfixed

Defeated Sanity

Unfit predatory inclination  
Impelled to compensate a flawed anatomy  
Utilizing nature's lethal offerings

Strength beyond appearance  
Unlikely victims seized  
Aerial abduction  
Precedes a gruesome end

Displaced to a site of execution  
For a notorious ritual

Transfixion  
To render the subject motionless  
Virulent properties  
Left to perish over time

Festered tissue now safe to tear away  
Unseemingly butcher can now feast at will

Cessation of toxicity

Trophies mounted on Gaia's doorstep  
Trails of bodies lead to bewilderment  
Bizarre hierarchy manifested in  
Incongruent ways

Vile stationary mutilation  
Impaled for sustenance
