

Drivelling Putrefaction

Defeated Sanity

Ignominious spawns of virgin birth
Ascending from volcanic ash
Anatomy designed for combat
Destined to prevail

Septic pathogens flourish within the oral cavity
Armored under flesh, undaunted in their dominance
Sensory receptors triggering the predatory impulse
Disciples of decay amass in rapacious gluttony

Individual action prompts collective nourishment
Prey induced with sickness
Post-mortally retrieved

Assaulted from below
Lesions inflicted, deceptively malignant
As bloodstream infuses with toxins
Death lurks in their shadow
Embodied in bestial congregation

They fall back to the undergrowth
As target is condemned to calamitous infection
a slow, rotting end to existence

Diffusion of fresh spoilage
Forked tongues savoring the airborne putridity
Fomenting a festering feast

Repugnant horde
Now congregates
Engulfing the
Cadaver in...
(Repeat)
