

# Entity Dissolving Entity

Defeated Sanity

Twitching seizing body  
Drifting on the surface  
Displaying vivacious activity

A sign of life, or of distress?  
A closer look reveals a grim reality  
Ripping and tearing motions, mimicking bodily exertion  
An illusion of vitality

Lurking in shallow waters  
A carnivorous whole  
Bound to the depths  
As guardians of their domain

Reigning with ominous authority  
Seeking out the wounded and the sick  
To obliterate impurities  
Weakness precedes demise  
The infirm fall victim to the cleansing

A purifying maelstrom  
Claiming the flesh  
Opening and expanding the wound  
To permeate the interior

Endowed with devastating potential  
Harnessed by nature's bidding

A Loathsome arsenal of lethal incisors  
Laying waste to pollutive decay  
Anatomy erased within seconds  
Body departs prior to consciousness

Entity... Dissolving... Entity

Stripped down to the foundation  
Tissue fragments dispersed within the swarm  
Balance restored in their fragile territory  
Amazonian rivers now decorated with the scarce remains

Reigning with ominous authority  
Seeking out the wounded and the sick  
To obliterate impurities  
Weakness precedes demise
