

## Evil Strike

Defeater

This punch you will not forget  
Stronger damage that you must protect  
The resistance of dark kingdom  
Will host you wild and insanely

Pre-Chorus:

You are trapped in the evil  
You are trapped in the evil strike

Chorus:

Evil strike, evil striker

Heavy artillery and heavy breath  
Accompany you along your way  
Strong hammer will be your fate  
Till' death we obey

Riding the four horses of the apocalypse  
The brave warriors are less  
Come see the fallen's destiny  
The misery they have left

Turn your head around the circle  
Faster attack like an eagle  
Turn your around the circle  
No disappointment to the brigades
