

Beneath The Surface

Defences

Can't stop this, but I will always have a choice
No turning back from it, I hear the aching your voice
Time to rebuild and start again
But I will always have white noise to save me
When nothing is changing

Break through, but this ain't nothing new
Stop me or I'll end up like you
Please say you'll stay beneath the surface where you can't dict
ate me
Am I going crazy?

Am I an illness or just a box you gotta tick?
Reality exists in more ways than you will admit
You'll never see this face again
But I will always have your arms to save me
I know you'll be waiting

Break through, but this ain't nothing new
Stop me or I'll end up like you
Please say you'll stay beneath the surface where you can't dict
ate me
Am I going crazy?

All the lying that you've done, tell me which side are you on?
And I fear, for my life
Am I losing, losing my mind?

Now the time has come to
Break through, but this ain't nothing new
Stop me or I'll end up like you
Please say you'll stay beneath the surface where you can't dict
ate me
You can't dictate me

Break through, but this ain't nothing new
Stop me or I'll end up like you
Please say you'll stay beneath the surface where you can't dict
ate me
Am I going crazy?

Am I going crazy?
