Let You In

Defences

(Please be patient with me, and I'll let you inside
Despite my worries of what you'll find)
I built these defences strong, invincible for so long
I feel them weaking, and it scares me

(Trying to ignore all the signs, that I'm in too deep
Will you be the one to save me?)

This is not an unfamiliar force but
It hit me harder than ever before and
All I want is to take care of you
Promise that you'll take care of me too
('Cause I can't pick up the pieces again)

(There's no secrets I'll hide from you, no stone left unturned
But it's no secret that the words get caught in my throat)
Over and over again, I hear them
Screaming "don't do this again", these voices

(Trying to ignore all the signs that I'm in too deep
Will you be the one to save me?)

This is not an unfamiliar force but
It hit me harder than ever before and
All I want is to take care of you
Promise that you'll take care of me too
('Cause I can't pick up the pieces again)

(The pieces of my heart
Without falling apart
I swear I'll let you in
I swear I'll let you in
Pick up the pieces again
I swear I'll let you in!)

Give me time to figure it out
I'm breaking down my defences
I'm breaking down my defences

This is not an unfamiliar force but
It hit me harder than ever before and
All I want is to take care of you
Promise that you'll take care of me too

(Get the fuck up!)
