

Little Light

Defences

Strength comes in all forms
Isn't that what they say?
Thought I used to be strong
And somewhere along the way
Everything changed
When did this happen
Our time slipped away

I'm still only doing okay
Wouldn't say I'm great
But I wanna get better
Yeah I wanna get better
And that's the biggest thing that's changed

When I'm dyed in the wool
Tell me we'll do this together
Keep me close and we'll pull
Each other out of the gutter
It took a while to draw the curtains from my eyes
I think somehow I'm still adjusting to the light

Take my hand and keep me close
'Cause I can feel myself becoming a ghost (Becoming a ghost)
When all I used to be is just a distant memory
Pull me away from goodnight
There's more for me to see
I just need a little light

When I'm dyed in the wool
Tell me we'll do this together
Keep me close and we'll pull
Each other out of the gutter
It took a while to draw the curtains from my eyes
I think somehow I'm still adjusting to the light

The light
Trust me, keep me closer
Closer

Strength comes in all forms
Didn't someone say?
I know I used to be strong
But then everything changed
Everything changed

When I'm dyed in the wool
Tell me we'll do this together
Keep me close and we'll pull
Each other out of the gutter
It took a while to draw the curtains from my eyes (From my eyes)
I think somehow I'm still adjusting to the light (To the light)

It took a while to draw the curtains from my eyes (The light)
I think somehow I'm still adjusting to the light
