

# Say It

## Defences

Save your lies

I've always tried to keep things vague  
Not let my words  
Not let my words put anyone to shame  
But this time I've decided I don't care  
No I don't care because I've had enough  
Yeah you've pissed me off

Save your lies, don't deny  
I know you better than you think I do  
After all that you put me through

Why don't you go ahead and  
Say it, spit it out  
Say that I was just a phase  
And you're over it now  
Why am I let down by myself  
You and everyone else?

Everyone else

Are we just gonna pretend like this didn't tear me apart?  
Do you even have a heart?  
Do you even have a heart?  
A hard pill to swallow, you left me to choke  
But I made it out on my own  
And that's all she wrote

Write it off like a dream you wish you never had  
You never had  
No emotions and no regrets

Why don't you go ahead and  
Say it, spit it out  
Say that I was just a phase  
And you're over it now  
Why am I let down by myself  
You and everyone else?

Write it off like a bad dream  
Say whatever you're thinking  
Write it off like a bad dream  
Say whatever you're thinking  
Write it off like a bad dream (Is this what you wanted?)  
Say whatever you're thinking (No reason to care)  
Write it off like a bad dream (I'm ready to hear it)  
Say whatever you're thinking (I swear, I swear, I swear)

Go ahead and (Go ahead and)  
Say it, spit it out  
Say that I was just a phase  
And you're over it now  
Why am I let down by myself (Why am I let down)  
You and everyone else? (Everyone else)

Say it, spit it out

Write it off like a bad dream  
Say it, spit it out  
Write it off like a bad dream  
Say it, spit it out  
Write it off like a bad dream  
Say it, spit it out
