

## Battle-Axe

## Deftones

I want to sleep if you are awake  
Still making you believe that you aren't at all crazy  
And if you don't believe I think you should  
You make me so proud

Still you love to think you have always been this way ... but y  
ou're all wrong  
And you only sleep when you've lost cause  
Well I still believe the cause was always me

And if you don't believe I think you should  
You make me so proud

Still you love to think you have always been this way  
Well I'd love to think you will someday feel the same  
And you love to think it will always...always...  
If you still believe it was always be this way... well you're a  
ll wrong
