

Caress

Deftones

Gracie, we're makin babies, yea, we're barefoot on the tiles*
We make 'em soft and small and tender, it's the biggest hazard
of your gender
Gotta hold it by yourself
Gracie, hold yourself together, it's bad now but it gets better
We're all here to help
Everything is swollen, everything is swell... everybody's watch
ing
They all wanna see it kick
Pleasure is your crime, junior is your punishment
Happens all the time, everybody rub it in.
It ain't hard to find fault in any thing you do,
We learned to love the hard way, you're gonna learn it too.
