

Christmas

Deftones

Ah caca, scale skin, left alone
Revise me longing
My sister, she's my waiting owl
Don't stop believing

I'm just the last to kick the cup
You think you know me oh, just shut the fuck up
I keep my word 'cause I'm bound to get it right
Standin' up tall, and I'm jack, I'm jackin', I'm bustin' balls
To get back, and up again, I know my mind is set
Why is you still talkin' and the world just got to me today
Oh, what we say, love and adore yeah

My child your child, let him go
Leave her believe her my sister she's a waiting owl
Ya can't stop believing

I'm just the last to kick the cup
Oh you don't know me oh, just shut the fuck up
I keep my word, 'cause I'm around to get it right
Standin' up tall, and I'm jack, I'm jackin', I'm bustin' balls
To get back, and up again, I know my mind is set
Why is you still talkin' and the world just got to me today
Oh, what we say, love and adore
What's stolen, oh, when it's over
