

# The Monster Within

Degradead

I've been extradiated to madness  
With all my demons within  
They're reaching out from the subconscious  
Pulling me slowly down

Into the pit of depression  
Where all I know is hate  
Forgetting all what love is  
And I know this is my fate

Without you, one part is missing  
The emptiness inside, makes me insane  
Without you, one part is missing  
The emptiness inside, makes me unleash  
The monster within

You have been gone for so long  
It has taken me  
You have been gone for so long  
It has taken me

Anger and despair  
Anxiety and pain  
Only you could heal the damage  
Only you can hear a dead mans cries

Without you, one part is missing  
The emptiness inside, makes me insane  
Without you, one part is missing  
The emptiness inside, makes me unleash  
The monster within
