

## We'll Meet Again

Degradead

My time has passed and you're gone  
Leaves has fallen at last  
The wind has started to whisper

Still, I am never alone  
I take my breathe and go on  
Visit me in my dreamland

Think, think of all that we have  
I pass it on to my own  
The bond will never be broken

Sleep, we will meet in the end  
My memories we will share  
Endless love you have given

You have not forsaken me  
You are always in my dreams  
I get my strength from you  
Your light has passed me right through

Don't understand why you left  
Nurture me with your love  
Hollow shell need it's guidance

Reach, reaching out to the stars  
A better world in the void  
As long as you stay among them

You have not forsaken me  
You are always in my dreams  
I get my strength from you  
Your light has passed me right through
