# Alien

**Dehd**

Hello?

I'm from another world
I'm not a normal girl
I'm just a pattern of shadow under pale sun
I'm like a lighthouse
Bright and casting out
Light across the waves
Somewhere someday someone's just for me

Hope this love can take me higher
Hold my head, hurt me harder
I've been watching, catching fire
Love can't win if there's no power
Hope this love can take me higher
Hold my head, hurt me harder
I've been watching, catching fire
Love can't win if there's no power

Fire
Power

You are the candlelight
Flickering in and out
Yeah, the space between
Wick and flame, what will it take?
I'm in another world
Flowering underfoot
Mirror in my hand
Light reflecting sweetly

Hope this love can take me higher
Hold my head, hurt me harder
I've been watching, catching fire
Love can't win if there's no power
Hope this love can take me higher
Hold my head, hurt me harder
I've been watching, catching fire
Love can't win if there's no power

I give up on everything
Power
Turns out who I need is me
Power
I give up on everything
Power
Turns out who I need

Hope this love can take me higher
Hold my head, hurt me harder
I've been watching, catching fire
Love can't win if there's no power
Hope this love can take me higher
Hold my head, hurt me harder
I've been watching, catching fire
Love can't win if there's no power
