

# Control

Dehd

Because you know it only takes a minute  
You start out fine, but then I'm in it  
I feel the fever in my head start to take its hold  
Need you here the most

I'm outta control  
Out of control  
Out of control  
Outta control

Because you know it only takes a minute  
Thought I was dancing with no one as a witness  
I feel the fever in my head start to take its hold  
Need you here the most

I'm outta control  
Out of control  
I'm outta control
