

Desire

Dehd

Baby, I love ya
Always thinking of ya
Huh

Well, I still see you with fire in my eyes
Seen you walking, I know it's goodbye
These are long days, that are longer at night
Been a long day, it's longer tonight

Desire
Desire
Desire
Desire

When will this hoping
Feel like a win?
For now I'm soaking
Weak in my knees
Here's to this hoping
Taking wing
I want to show you
You are my dream

Dream, you are my dream, you are my dream
You are my dream, you are my dream
You are my dream, you are my dream
You are my dream, you are my dream
You are my dream, you are my dream
You are my dream, you are

Desire
Desire
Desire
Desire

Let me out, let me out
Let me out, let me out
Let me out, let me out
Let me out, let me out
Let me out, let me out
Let me out
