

Don't Look Down

Dehd

Gotta find a way to get together
I don't want to wait for things to get better
I don't care about what they say
I don't really care about what they think
One step forward, one step back
Give me all your heart, I'll give mine back
Love's the reason I'm a mess
I want it, I want it, I want

Don't look down
Love's all around you
Don't look down
I'll
Don't look down

Gotta find a way to get together
I don't need for this to last forever
Love's uncertain, chest caves in
First, I need you for a friend
One door opens, you step in
Tell me how you want this night to end
Make a mess now of my bed
I want it, I want it, I want

Don't look down
Love's all around you
Don't look down
I'll
Don't look down
Don't look down

Anytime
I don't ever want to hear anymore, anymore, anymore
That I want for what it wants
Anytime
I don't ever want to hear anymore, anymore, anymore
That I want for what it wants
Anytime
I don't ever want to hear anymore, anymore, anymore, anymore

Don't look down
Love's all around you
Don't look down
I'll
Don't look down
Don't look down
