

Enough Fire

Dehd

I'm hungry and on it
(You barely start in brimstone)
It's hardly in and out
(Oh, what do I know, I'll walk alone)
All rumors of caution
(New thirst oh, where do we start)
I'll close my eyes in a moment
(I'll close my eyes, I'll walk alone)

You got it, I'm holding
I'll close my eyes in a moment
Leave early, leave early
(They want my warmth, they want my heat)
'Cause I'm barely holding on now
(No room for me yesterday my dear)

They want my blaze, they want my power
They want my night, they want my fire
They want my blaze, they want my power
They want my night, they want my fire
Fire
