

Everyone Knows

Dehd

Everyone knows it's a lifetime
Figuring out what is right
Everyone knows that your friends feel
Far when you look for advice
Everyone knows that as time heals
Love can't do much to survive
Everyone knows when I miss you
I want, want you to know

Feeling close
Feeling close tonight

Everyone knows it's a shadow
Knocking its boots in the light
Everyone knows when I wake up
I looked for you there at my side
Everyone knows that as time heals
Healing is far from the mind
Everyone knows that I won't stop
Watching you take off your clothes

Feeling close
Feeling close
