

## Flying

Dehd

If this is all that we get  
So be it, so be it  
It was worth it to know you exist  
It was worth it, worth it  
To know you is to care  
To know you is a bit unfair

I'm in heaven  
Or in hell?  
I can't tell

Flying, you got me flying  
Trying, you got me trying

In the garden of emotion  
I'll see the flower of devotion  
Admiration, affection, obsession  
Give me your attention

Is this living? Cause I'm giving in  
I'm along for the ride, I'm staying in time  
Waking up to, we're facing up to  
The space we're taking up  
We're making up for

This times enough, I hold it up  
Mind is love  
My heart is tough

Flying, you got me flying  
Trying, you got me trying

To know you is to care  
But to know you is a bit unfair
