

Forget

Dehd

If I told you I love you, then would you stay?
We could put aside all the things that got in the way
And you know that I'm so good at playing pretend
Yeah, it's true, I got problems letting things end

How could I forget?
How could I forget?
How could I forget?
We're never looking back

We could play sugar cube fantasy bed
The movie's over, you're kissing my hand
Nights like these I could never regret
They live inside me, they are who I am

How could I forget?
How could I forget?
How could I forget?
We're never looking back

Make believe
The world is more than dreams
I miss you more than it seems
I'm acting tough, yeah
I do it for you and for me

How could it be?
Oh, how could it be?
We're never looking back
