

## Lake

Dehd

When you call my name  
There my heart starts beating  
When you hold my hand  
There I'm filled with feeling

Friends and just friends  
They come and they go  
Some will stick around  
True love conquers all

Love is a great big lake  
Love is heavy and deep  
I am not afraid  
Love is a great big lake

Lately  
It's been raining lately  
I've been spending lately  
It's been lonely lately  
I'm just kidding

Staring back at me  
From the back of your bicycle seat  
You are my one true love  
You love me from the start, start

Love is a great big lake  
Love is heavy and deep  
I am not afraid  
Love is a great big lake

Great big lake  
Great big lake  
Great big lake  
Great big lake
