Last night, last night, I thought I was alright  
Possession, possession, oh to possess you  
Keep it, keep it together  
You belong, belong to another  
But my heart is beating slower  
Yeah, my heart is beating, beating

Love was different  
Love was different yesterday  
And oh, I felt differently  
I felt differently yesterday

Give up, give up  
You gotta give up before you give in  
Let go, let go  
I can hear all the gods are singing  
Out loud, out loud, we're so out loud  
I'm walking backwards now  
Keeping, keeping secrets to myself again and again and

Love was different  
Love was different yesterday  
And oh, I felt differently  
I felt differently yesterday
