

Mood Ring

Dehd

Angel

Get back now, here comes my baby
Tough and rumble man with a little bit of danger
I-I-I-I can't believe that he's with me
He's everything I need, my sexy little angel
Get back now, here comes my baby
Tough and rumble man with a little bit of danger
I-I-I-I can't believe that he's with me
He's everything I need, my sexy little angel

I check my mood ring
Gimme that, gimme that sweet believing
I got these feelings
I wanna shout out loud, loud, loud
I wanna shout out loud, loud, loud

I gotta get back
I never thought that you would start to feel the same
I gotta get back
I never thought that you would start to feel the same

Get back now, here comes my baby
Get back now, here comes my baby
Get back now, here comes my baby
Get back now, here comes my baby

Yeah, you got me reeling
I'm spinning around, 'round, spinning around, 'round
Love is gonna save me
You better get back now, 'cause here comes my baby

I gotta get back, I never thought that you would start to feel the same
Get back now, here comes my baby
Tough and rumble man with a little bit of danger
I gotta get back, I never thought that you would start to feel the same
I-I-I-I can't believe that he's with me
He's everything I need, my sexy little angel

Get back now, here comes my baby
I never thought you'd start to feel the same
Tough and rumble man with a little bit of danger
I-I-I-I can't believe that he's with me
I never thought you'd start to feel the same
He's everything I need, my sexy little angel

I
I
I
I, I, I, I
Angel
