

Necklace

Dehd

Pressure for connection when we're not together
Sitting on a mountainside, you're sleeping in my sweater
Do you think of me when you're running errands?
Do you think about it?

'Cause I'm counting on you
Counting on you
Counting on you
Counting on you

Distance, heart grows fonder
All my longing just gets longer
Counting seconds, checking days
Thinking of the different ways to
Touch it, feel you
Think that I'm the one to heal you
Pull the ocean out to sea
Pull your lips now close to me

I'm counting on you
Counting on you
Counting on you
Counting on you

Pressure for connection when we're not together
Necklace banging on my chest, I cross it for protection
Miles, distance seems like something's missing
Do you spend your time like every day's a blessing?

Counting on you
Counting on you
Counting on you
Counting on you

I'm counting on you
I'm counting on you
I'm counting on you
