

No Difference

Dehd

Take a hit
Take a hit so you know this is it
Take a hit, this is it, this is it
There are some days I think I'm gonna quit
Then some days I'm glad I never did

A million miles left to go
Where we're going I don't know
Makes no difference anymore
Makes no difference anymore

Blazing down this highway
The sun is burning bright
I don't even attempt to shield my very eyes
I see it all now, everything that we are
We lead a life in joy or in despair

Moving mountains of the past
Once an ocean, nothing lasts
Makes no difference anymore
Makes no difference anymore

(This is all we get)
More (This is all we get)
More (This is all we get)
More (This is all we get)
More (This is all we get)
More (This is all we get)
More (This is all we get)
More (Best to take the risk)
