

Water

Dehd

Test my faith in believing
You are the reason
For all my well-being
Absently

Oh, ah
Test my faith in believing
Yeah, oh

I wanna be with you forever
I just can't stop looking at the others
(I wanna find you something I control)
I wanna be with you forever
I just can't stop looking at the others
(I wanna find you something I control)
I need you like I need water
I just can't stop loving on another
(I wanna find you something I control)
I need you like I need water
I just can't stop loving on another, ow!
(I wanna find you, I wanna find control)

Test my faith in believing
You are the seasons
That guide my misfortune
Like leaves in the wind

Oh, ah
Some nights rain is falling
On my way home

I wanna be with you forever
I just can't stop looking at the others
(I wanna find you something I control)
I wanna be with you forever
I just can't stop looking at the others
(I wanna find you something I control)
I need you like I need water
I just can't stop loving on another
(I wanna find you something I control)
I need you like I need water
I just can't stop loving on another
(I wanna find you, I wanna find control)
