

To Hell with God

Deicide

Missions of death, spread upon earth
Preach in disguise of a god and his church
No compromise, believe or you die, pray unto him and to follow
his lies
Buy into christ, he waits on you dead, sin for the father again
and again
Falter, diminished, salvation, enslaved, to hell with god and t
o all that he gave
Raise our glass to blasphemy and piss upon the altar
Servants of the lord above, ignore the new world order
Conquer us, unleash damnation, go from here into temptation
Live in fear, for he forsakes you, lies endeared for all creati
on
Festering death, forsaken my soul, evil so ancient from elders
of old
Waging this world with its book of disgust, casting its will up
on all who will trust
Protests, won't leave them to be, spoiled by god and his beauti
ful scheme
Satan insists on his being, upon the earth and emplaced oversee
ing
Raise our glass to blasphemy and piss upon the altar
Servants of the lord above, ignore the new world order
Conquer us, unleash damnation, go from here into temptation
Live in fear and no salvation, lies endeared for all creation
To hell with god, you're damned to the edge of riddance
To hell with god, you don't want to be forgiven
Put aside your crucifix
To hell with god, him and his son, do not believe the likes of
a thief
To hell with god
To hell with god
To hell with god
Missions of death, spread upon earth
Preach in disguise of a god and his church
No compromise, believe or you die, pray unto him and to follow
his lies
Buy into christ, he waits on you dead, sin for the father again
and again

o all that he gave
