Deinonychus

witness to an atrocity • I have sewn stench of death and decomposing • was to eat a 1000 sins • i am the eater of sin • devourer • black birds pick at my flesh • cleaning meat from bone • you laying in arms of naked flesh and needles • and maggots like you still are here to receive the forgiveness of your sorry lord • what is more evil • the edge that is filled with heroin or blood or? • it is the sons and daughters of a generation dying • when your time has come • why just to fly and fall • how will she feel tomorrow • when her only daughter • was fucked • gutted and taped in silence • her eyes fixated on yours • in her last moments • she watched you • watching in haze of drugged fueled orgy • your hollow and dazed eyes • you walked your baby in to the act that had to follow • be sure my child of light • you are forgiven • Mother? • i am taking you into darkness • forever
