

# Complete Me

Deitrick Haddon

I thought about how much I need you Lord  
I just wanna please you Lord  
Hold me up with emotion  
Only you can complete Lord

So when my cross gets too heavy  
I'm asking you to carry me  
Be my eyes when I can't see  
Lord in you I am complete  
Giving you every part of me  
Soul, mind and my body  
Put me back together piece by piece  
Lord in you I am complete

Nobody else can compare to you  
You complete me  
Yes, you complete me  
You complete me  
You complete me  
You complete me  
You complete me

Haven't always made the right choice  
When I prayed you always heard my voice  
I need thee, I need thee  
Only you complete me

So when my cross gets too heavy  
I'm asking you to carry me  
Be my eyes when I can't see  
Lord in you I am complete  
Giving you every part of me  
Soul, mind and my body  
Put me back together piece by piece  
Lord in you I am complete

Nobody else in the world can compare to you  
You complete me  
Yes, you complete me  
Nobody in the world can compare to you  
You complete me  
Nobody in the world can compare to you  
You complete me  
You complete me, you complete me

Nobody else in the world can compare to you  
You complete me  
Yes, you complete me  
You complete me, you complete me  
You complete me, you complete me

When my cross gets too heavy  
Would you be my eyes when I can't see  
Lord I'm giving you every part of me  
Lord put me back together piece by piece  
In you I am complete
