

God Made

Deitrick Haddon

I'm a man who had to fight just to get ahead
Maybe that explains why I'm rough around the edge
But at the core of me is a heart made of Gold
I'm confident and bold and I'm trying to win souls
If you want to judge that's alright
Just don't forget that dirt in your own eye
Oh I admit I get caught in my emotions
But never ever question my devotion

God made, God made
God made me who I am
In his eyes I'm perfect
God made, God made
And I am who I am
Because of I am
I'm God made, I'm God made
I'm God made, I'm God made

When you know Jesus for yourself
You don't need no validation from nobody else
When you're not afraid to stand on your own
That's when you're ready for your crown, be seated on your throne
Just don't forget where your help comes from
And don't try to shine brighter than the son
And when the negativity comes your way
Remember I'm God made

God made, God made
God made me who I am
In his eyes I'm perfect
God made, God made
And I am who I am
Because of I am
I'm God made, I'm God made
I'm God made, I'm God made

Made in the image of God
Already makes you a star
Do you know who you are?
If you believe this in your heart
The wounds and the scars
God is using it to make you who you are

I am God made
God made, God made
God made
God made, God
I am God made
God made, God made
God made
God made, God

I am who I am because of the great I am
I am who I am because of the great I am
