

Live The Life

Deitrick Haddon

Got to live the life
the life you sing about
Somebody counting on you
Somebody counting on you
Got to live the life the life you preach about
Somebody counting on you
Somebody counting on you

I meet a brother a brother just the other day got my attention
he was walking my way, he said brother deitrick haddon there is
somebody that I wanna say, don't be a phony don't be a fake
their are to many souls at state.
people need to see a young man living for the lord everday

Got to live the life
the life you sing about
Somebody counting on you
Somebody counting on you
Got to live the life the life you preach about
Somebody counting on you
Somebody counting on you

You don't have to keep lving in sin
for the seek of the money and the fame,
but with a prophet you can gain it all,
an set yourself before you fall
be an example be the one to stand,
god will set the money for the man
just be counsious of the things you do,
cause somebody look up to you,
Got to be real for, the lord is real,

There's a little baby boy
That wanna walk in your shoes
There's a little baby girl
She don't need to hear no bad news
Don't be a hypocrite
I don't know how they can handle it
Gotta be a light
Gotta live the life
