

Momma We Made It

Deitrick Haddon

Far we've come
We've come a mighty long way
Momma we made it

Dear momma
I wanna give you your flowers
You deserve all the love and the honor
You had to play the role of a mother and a father
Dear momma
You had to work two job and depend on god and I know it was hard, momma
You had to keep going
With a broke down car
And a broken heart
Kept a smile on your face
With beautiful and grace
And because of your strength
We come a mighty long way

Look how far
Far we've come
We've come a mighty long way
Momma we made it
Far we've come
We've come a mighty long way
Momma we made it

What we didn't have you made up for it
Showed us how to trust in god pray for it
You can have what you want if you just work for it
If you make a mistake you just gotta own it

This is the wisdom that comes from the greatest mother of all
The foundation you laid is why we're standing tall
I speak for all my sisters and my brothers
There no one above ya
No one ever can replace ya
Momma your my heart
Momma look how far

Look how far
Far we've come
We've come a mighty long way
Momma we made it
Far we've come
We've come a mighty long way
Momma we made it

Somebody's missing their mother right now
She's looking down from heaven right now
Talking the angles about you now
Of how you made her proud

Momma...
