

## No Tears

Deitrick Haddon

You had to walk in my shoes to understand my why  
You had to pay my dues but that's too heavy a price  
Love should never have you crying all night  
That's what I don't regret taking control of my life

Deep down you know when something ain't right  
Gotta move on when you know it ain't right y'all

I know goodbye hurts a little  
But we all gotta do it sometimes  
But I made up in my mind that I

I've got no tears  
God took the pain away  
I've got no tears, no tears, no tears  
For yesterday

When I look back  
It wasn't all bad  
I can't deny the times we had  
But it still wasn't worth the pain  
For me to stay around I had to be insane  
Choosing yourself could look real cold  
And people judging you when you don't know  
At the end of the day  
You gotta walk away  
If you wanna save  
Your soul

And I know goodbye hurts a little  
But we all gotta do it  
But I made up in my mind

I've got no tears  
God took the pain away  
I've got no tears, no tears, no tears  
For yesterday

I've got no tears  
No tears  
I've got no tears  
No tears
