

Soul Survivor

Deitrick Haddon

Yeah!
Ladies and gentlemen
This is a tray over dal exclusive
Featuring Deitrick Haddon
Turn me up

I'm a soul survivor
I'm a soul survivor
I'm a soul survivor
Soul soul

I'm not one of those gospel singers that's foney
Might as well tell the truth
You see I got a testimony
Can I share it with you?
See my Daddy was crazy
And left my Mother with three babies
But she did what she could to stand
Till God gave her a real man

You see I'm so grateful, I'm still alive
In a drive-by was supposed to die
When the streets was callin', callin' my name
Glad somebody prayed

You don't know what I've been through
To get this music out to you
Coz through the flood and through the fire
I'm a soul survivor
Could've been six feet under but God is good
He's a wonder and I'm going higher
I'm a soul survivor

I'm a soul survivor
I'm a soul survivor
I'm a soul survivor
Soul soul

Said I came in this game with a new sign
He said
Give him a few years he won't be around
Now its more than a few years and I'm still down
All my haters, what you sayin' now
So much drama in the industry
There's so much hatin' that you don't see
People carry you down to stay on top
I don't think that its ever gonna stop

And I gotta tell myself just ignore them
Just think about their souls that you must win
Its your annoynting that they're scared of
Just keep showin' them love

You don't know what I've been through
To get this music out to you
Coz through the flood and through the fire
I'm a soul survivor

Could've been six feet under but God is good
He's a wonder and I'm going higher
I'm a soul survivor

You don't know what I've been through
To get this music out to you
Coz through the flood and through the fire
I'm a soul survivor
Could've been six feet under but God is good
He's a wonder and I'm going higher
I'm a soul survivor

Now let it breath
Alright

I've been talk about and critisized
I've been persecuted and scandalized
There was some that was truth but most were lies
Because of God I'm still alive
So much gossip up in the church
And people don't care if it hurts
They will smile in your face like a friend
How do we expect sinners to come on in

(You see you don't know)
You don't know what I've been through
To get this music out to you
Coz through the flood and through the fire
I'm a soul survivor
Could've been six feet under but God is good
He's a wonder and I'm going higher
I'm a soul survivor

I'm a soul survivor
I'm a soul survivor
I'm a soul survivor
Soul soul
[x4]

Wooh!
Let it breath
