

# Ascendancy Through Obliteration

Deivos

Conceiver of mass destruction  
Purifier of all essence  
Wielding the flame of decimation  
Plunge the world into the black void  
Malefic masterplan to terminate all life  
Doomsday shroud encircle the earth  
Shattered peace will tread the path  
To ascendance through obliteration

Deadly blessings raining from the skies  
Poisoning the land

The blackened souls' outcry, deliverance denied  
Inflict unrest and chaos, vaporize the casualties  
Watch the cities consumed in fireball  
Proclaim a total war

Desire to devour  
Hecatombs engulfing mankind  
Paralyzed by fear, you must  
Bow to the master of tyranny  
Clear way for the reign of scourge

A dying world overtaken by terror  
Massacre implemented  
Ripping your face off. brute force  
Carcasses left for vultures  
Gnawing the flesh from every bone

Fallout winds hail the victory  
Scattering the remains

Inflict unrest and chaos, vaporize the casualties  
See them lying in the pangs of death  
Eradicate the stillborn race
